Essential Leadership

for High Performance Teams

Workshop outline

Effective leadership is founded on respect and trust, not fear and submission. Respect and trust help to inspire whole-hearted commitment in a team, fear and submission merely produce compliance. Leadership involves creating a clear Vision for the future that fuels business growth and focuses the efforts of a group of people towards achieving it. It is about motivating and empowering individuals to maximise their potential and to recognise their success when they do. It is also about recognising the different styles of leadership required to manage change or to sustain and improve a steady state environment. This workshop provides a challenging environment in which delegates can acquire both knowledge and skills as well as developing practical solutions to current leadership issues.

The workshop is designed for those who are formal or informal leaders in the business and who wish to enhance their understanding of their role and develop their leadership skills.
